

## Eazy Pyramid® characteristics

Model : pyramid  
Weight dried : 0.5 kg  
Size moist: 25 x 25 x 15 cm  
Air-to-water ratio : 20-80  
Volume : 4.5 L  
EC : 1.0 \*  
pH : 5.8 \*  
Weight moist : 3.6 kg

### Features

- self regulating
- easy to control
- air pruning for substantial enlargement hair root mass
- suitable for gradual drier cultivation

### Compatibility

all known growing media, like Rock Wool, coir pith, black and white peat, garden soil, potting soil, soil-less mixes, bark fines and wood mulch, sand and grit, wood fibers, perlite, pumice, clay and vermiculite.

### Employability

hydroponic systems like eb&flow, drip-feed (recovery and non-recovery), nutrient film technique, wicksystems, floating platforms, deep water culture, aquaponic systems, dry hydroponics, soil (indoor and outdoor)

### Re-moistening time when completely dehydrated

pouring from above < 2 minutes  
immerge < 2 minutes  
drip-feed - depends on ratio  
watering from below < 60 minutes

## **Composting**

100% in normal composting conditions, no industrial composting necessary.

Declared: bonding of components has no discernible effect on compostability.

## **Safety**

Declared: material meets safety requirements of REACH.

## **Toxicity**

Declared: non-toxic.

## **Recycling after cultivation**

The pyramid does not contain any plant residue with regenerative capacity and can be recycled by:

use as soil improver

add composting initiator and pack as compost bags

re-usage after steam-clean or microwave-clean

## **Cultivation details**

For air pruning effect, usage of the pyramid without sleeve is strongly advised. In such case photosynthetic algae like green algae can occur. This does not effect plant life and is only an optical issue. Green algae can be easily treated with fungicides and/or a light copper solution.

## **Technical cultivation advice**

Ask your crop advisor or contact your supplier.
